200yard ANY RIFLE

Dave M was our only representative as Peter was missing and Jim S was without a working gun. His score was 148 which was a winning score a few years ago but how times have changed and scores gone up. Seventh out of seven.

200yard CSR

Dave H was struggling with his sitting position and was last.

McQueen

Again only Dave M but he shot well and was 10th with 50/2 beating some top shooters.

PRACTICAL RIFLE

This was in place of the PP event so Tim supported it, from very close to the bottom. But he will have a go at anything that involves running around shooting fast.

SUMMARY

Tim summed it up as a bad end to a bad season but then he is rarely happy with his scores. The weekend was great for some but disappointing for others who should spent time practicing through the winter (Dave). If anyone fancies having a go at one of the events we travel to just ask for the information, it would be great for more to travel.
