CSR Match

10 Feb

This was the first attempt at a club CSR event and it was considered to be a success by some or a learning experience by others.

For those uninitiated CSR stands for Civilian Service Rifle and a league is shot every month through the winter at Bisley which attracts considerable numbers, many from Team Derby.

The CoF usually involves movement with the rifle such as running from 400yds to 300yds in a set time before engaging the target. This taster session did not include movement but did include changing position, and was shot on reduced size targets to make it realistic. Surprisingly some who had not attempted CSR before were very close to the top of the results.

Had Jim St only used his Classic he would have come 4th overall. Jim loaned Tim m his black rifle and of course Tim beat him with it – But Jim had sighted it in by then.

Thanks to all to shot and helped – especially Dave Holt. But he say he will only do it again if everyone turns up on time for the briefing – CSR don't do being late!
